Dear Sir/Madam,

Ref: INTERNSHIP CUM PLACEMENT PROGRAM FOR M.B.A

We take this opportunity to applaud the efforts your institution has taken in establishing a well-respected learning environment for students who are eager to learn. It gives us at 'CareerZoneTech' immense pleasure to introduce to your institution "Project Oriented Training cum placement Program "CareerZoneTech", this program is aimed at providing a qualitative training on industry-demanded Technical Skills, Soft Skills, Functional Skills, Interview Skills and ends with a Real-Time project work. The program has been designed in a way that it bridges the gap between the industry requirements and student potential.

ABOUT THE PROGRAM

Our patrons, majorly the leading MNCs and industry bodies often come back to us with a common problem stating the shortage of skilled manpower in the market and what pains they have to undergo to make this semi-skilled or half-ready manpower to make them professional and client ready. Being in a role of their extended HR team, we at CareerZoneTech used to feel the pinch with real great ratio of selection to rejection of the proposed candidates.

So a serious discussion with the industry bodies revealed the very fact that if there is some agency which can plug this gap of that 20-30% of polishing the open market pool, the industry can actually look at higher selection numbers with a satisfied outlook. Hence as experts who knows recruitment functions in and out, CareerZoneTech decided to venture into this unique coaching mode and called it "CZT-COLLEGE", to churn out true complete professionals for the industry to hire readily.

This is a comprehensive training that aims at turning the students into industry-ready potential candidates with clear deliverables of Corporate Skills, Management Skills, Soft Skills, Project Management Skills, Technical Skills like Java, .Net, PHP, Mobility, Web Development Embedded Systems, VLSI, MATLAB, Simulation for B.tech and M.C.A. and retail, marketing, Inside-outside sells, Digital marketing, recruitment, payroll, hr and marketing training for M.B.A. etc, with the real time project work. The program aims at providing a platform for assisting students in seeking bright career prospects

TRAINING

The training methodology includes Class-room training, Group activities, Individual assignments, Guest lectures by the industry experts and hands-on experience of project development / project environment.

Leadership traits displayed by figures like Bhishma, Krishna, and Yudhishtira. Participants gained knowledge of ethical leadership, strategic decision-making, and the value of developing close bonds with team members.

The session looked at the conflicts portrayed in the Mahabharata and the lessons they may teach us about resolving disputes and making decisions. The importance of reasoning, moral conundrums, and the effects of impetuous behaviour were all made clear to the audience. We went into great length on conflict resolution techniques, win-win negotiations, and successful decision-making techniques.

In conclusion, the seminar on "Success Mantras from the Mahabharata: Lessons for Managers" was a success infusing traditional management techniques with knowledge from the Mahabharata. It provided the participants with insightful knowledge that helped them become more successful leaders, create cohesive teams, make wise decisions, and handle change with resiliency. The seminar served as an example of dedication to provide professionals comprehensive development opportunities in their quest for success.
